

SMILE NEWS...

We hope that everyone enjoyed their summer and is getting settled in a new routine as the kids start back to school.

We have been busy updating our clinical operatories by installing new LED clinical lights for our dental rooms. They will reduce the strain on our patients' eyes and make it easier to pick shades on fillings & crown treatment.

No more bright lights shining down into your eyes.

We also have added 2 tablets at our front desk to allow for a quicker, more accurate check in process. You now will be able to check yourself in, be able to review your personal information, and update your medical history directly on a tablet so that it is immediately saved to your virtual chart.

We are excited about the updates we have made to our office and look forward to introducing them to you.

As we enter into the fall, remember that most insurance companies' benefits will expire at the end of the year. This is a good time of year to take care of treatment needed before your deductible renews again in January.

Remember to book early enough to allow us ample time to complete your treatment before December 23rd, 2014
(Our last day in the office for 2014).

We are always available to assist you with any questions or concerns you have regarding your dental insurance and benefits.

Thank you for your continued confidence in our practice.
